

Metallic Weatherproof

In-Use Covers

Extra Duty rated In-Use Covers for wet locations.
Meets NEMA3R and NEC's 2020 "Extra Duty"

Sigma's line of Metal While In Use Covers are engineered to handle the abuses of everyday outdoor electrical use. The robust design is constructed from heavy duty die cast metal and meets NEC's 2020 'Extra Duty' requirement for hinge strength and impact performance. The product offering includes one and two gang models which easily adapt for the most common outlet configurations.

NEW DESIGN
